

Florida Vaccine Sites

As of 1/14/2021 | 1

Demand for the COVID-19 vaccine is far in excess of the supply the state has received so far. It is anticipated that additional supplies will be coming soon.

Florida has many sites that are providing COVID-19 vaccines to eligible persons, but supplies are limited and appointments may not be available at many of these sites.

The state is prioritizing persons 65 years of age and older and health care personnel with direct patient contact and residents and staff of long term care facilities.

Please be aware that some locations are only serving very specific populations, such as frontline health care workers.

Appointments may be required and vaccine availability will vary from day to day and week to week, as we work to provide vaccines to the most vulnerable first.

This list will be updated as more sites and vaccines become available.

| County | Vaccination Site Name & Address | Phone or Website |
|---------------------|---|--|
